Paul Daryl Wong who won the Aquanaunt/Apeks Regulator, he also sent in a thank you letter to Dive Queensland:

I would firstly like to let you know that I indeed have taken receivership of my wonderful prize the AQUALUNG/APEK FLIGHT REGULATOR. I am overjoyed to have been one of the lucky participants in your 2009 DIVE QUEENSLAND RAFFLE that had been advertised in the Diverlog Magazine. I have been scuba diving for nearly 27 years and have been using an APEK Octopus for over 12 trouble free years. I would like to thank Queensland Dive and all the sponsors who have so generously donated their time and wonderful prizes.

I will be taking my newly acquired possession down to Jetty Dive Coffs Harbour to ensure it is ready to go on my next dive. I was also pleasantly surprised on how light the Apek Flight Regulator was as a whole and I am sure it will be even more pleasurable to dive knowing it will perform beautifully and be trouble free. I will be definitely showing off my Apek Flight Regulator to my dive buddies at my next Solitary Island Research Group (SURG) dive.

Happy Chappy
